SHE SCOTLAND

About us!

Have you heard about SHE Scotland? We bring women together to support each other and believe that “if you can’t see it, you can’t be it“.

Having female role models is of huge significance to show other women what can be achievable. SHE is a driving force for future generations of girls and young women, supporting them to realise their potential, so that they can have a positive impact on their community.

SHE Scotland has created a series of training programmes which women can deliver to other women. These programmes are designed to develop self-esteem and confidence, increase body awareness, and develop peer relationships for women of all ages. Additionally, in talking to young women, we found that the classroom was where a lot of the issues came from, so we work on building a relationship with schools and supporting the issues and inequalities that young women face in the classroom.

SHE Scotland are proud to be rolling out a programme of activities in the Angus area. If you would like to know more about what we do, or would like to support us in delivering this amazing programme, then please get in touch with Krysta Stoneley: **shescotland-krystastoneley@outlook.com**
